PROJECTS

DREAM HOME

Property rental website 11/2023 - 01/2024

A property rental platform where users can sign up as property owners to list their properties for rental, catering to regular users seeking accommodations. The platform utilizes React for the frontend, Express for the backend, and MongoDB for the database, ensuring robust functionality. Employing Tailwind CSS, I meticulously crafted a fully responsive design from scratch to provide users with a seamless browsing experience. Moreover, the administrator can oversee all activities and transactions on the platform, ensuring smooth operations and user satisfaction

WALWISE

Footware ecommerce website 08/2023 - 10/2023

An elegant and seamlessly responsive e-commerce website dedicated to footwear shopping. The website offers users the ability to log in, browse through diverse collections, and make purchases using either online payment methods or cash on delivery. Leveraging EJS templates, Node.js, Express.js, and MongoDB, I ensured a robust and efficient platform. The design prioritizes user experience and aesthetics, offering a visually pleasing interface that adapts seamlessly across devices for enhanced accessibility

PORTFOLIO WEBSITE

Crafted a captivating personal portfolio website using React and CSS, ensuring it's fully responsive and visually engaging. This platform serves as a comprehensive showcase of my background, skills, and projects, providing visitors with valuable insights into my capabilities. Included are my contact details, encouraging seamless communication. Feel free to explore my portfolio to discover more about my works and projects.
